

Reflection Name: Abishek Chudal Total Points 100

Every week in this class, you will reflect on your learning. Your participation in the summary is a summation of your answers the following questions. The questions are categorized on the difficulty of depth. Each question you answer is worth that many points; when you are done answering the questions, give yourself a total score based on the rubrics and provide justification in one sentence. You can only use each question once.

Please answer a subset of the following questions:

5 pts Questions (50 points)

#10 points questions (30 Points)

- What is the most significant take-a-way you have gained from your study this week?

Ans: Actually, I have learned way more important things than expected from first week, after our class from this week I actually believe in teamwork and doing work before hand and importance of working in team. Additionally, I now know how to improve soft skills, which are essential for hiring in the industrial sector. This week has taught me a few new things. After this week, I made a point of preparing myself and making plans before doing anything because doing so really increases our productivity and efficiency.

- Write a SMART goal for next week?

Ans: For this coming week I am looking forward to learn more about our course and will actively participate on class activities and also give a greater number of hours to this class. I am going to prepare everything before class starts which will help me to understand more clearly. I will learn about HTML in detail this coming week .and also, I will start to go to gym daily. I will reduce my time that I spend using social media and dedicate those time in study.

- What would you do differently next week?

Ans: As this was my first week I hadn't had any plans or set of rules so I decided to go with the flow and adopt in this new environment, from this coming week I will make a proper routine for me and will follow it, also I am planning to do assignment early than due dates which will give me enough time to practice even more and which will also help me in my grades. I am planning to wake up early and go to gym before class time which will make my body and mind healthy.

#20 pts Question (20 points)

- How do plan on contributing to the team, besides completing your tasks?

Ans: completing given task is the primary thing to contribute as a team member in a team but besides just completing task I want to share my ideas and information I got with my teammates and also collect theirs ideas, list them and help my teammates to solve their problems and actively participate in discussion, I will try to sort out things in a professional way with my teammates and if my teammate lacks any sort of information or idea with will share with him. Also, I will take suggestion from my friends and will implement those suggestions in my life. Moreover, I will try my best not to be burden to my teammates instead I will try to ease up their work with the knowledge I got.
